

HOW TO PLAY STAR

1. You win when your enemies are defeated.
2. There are overlapping alliances - The players sitting next to you are your allies, and the other players are your enemies.
3. All other players are technically your "opponents," even though you only have to focus on defeating your two enemies.

SECRET STAR

1. **Win condition** – You win when your enemies are defeated.
2. **Overlapping alliances** – You are allied with players who have the same the same color (color). Other players are your enemies. (Everyone has two suits.)
3. **Hidden identities** – Before the game begins, randomly distribute identity cards with overlapping suit combinations, such as: clubs-stars, stars-diamonds, diamonds-spades, spades-hearts, and hearts-clubs.

Keep your identity face down unless you are the first player or you lose the game.

4. **First player** – Their identity is kept face up, and they may look one other player's identity card before the game begins.
